A Message from the Council Director:

This year I would like to give a shout out and big thank you to our current staff who weathered a challenging year that included staff changes and moving of offices. Our office moved out of our Davis Avenue location to the space previously occupied by the Behavioral Health Board in the County Health Department building. Within 2 weeks, the FCF staff hustled and hustled to accomplish this task, and by the end of 2019 we were mostly settled in to our new digs. A special thank you to staff member Jon Higgins, who spearheaded this task and made it happen.

Although local challenges existed, from a state level perspective we are extremely excited about the Governor’s focus, attention and commitment to Family & Children First. Governor DeWine, who served as Lt. Gov. under Governor Voinovich (who began FCF) is acutely aware of the value of FCF and seeks to elevate its standing. Supports for our multi-system youth are now in place, and former State Representative Sarah LaTourette was appointed Director of Ohio Family & Children First. We are excited to have her leadership, enthusiasm, expertise, and passion for what we do. Thank you, Governor DeWine for your support and recognition!

And lastly, thank you to our FCF Council members for their continued support and collaboration, as well as the multitude of partners throughout the county, who work together for the benefit of families and children. We look forward to continually strengthening those collaborations, efforts and processes.

Respectfully,
Cindy Davis, Washington County Family & Children First Council Director

MISSION STATEMENT

The Washington County Family and Children First Council promotes coordination and collaboration among county and local governments, non-profit organizations, businesses, schools and families in a manner which fosters wellness and self sufficiency for families and increases child well-being.

The Vision of the Washington County Family & Children First Council is that all children and families thrive and succeed within healthy communities.

SHARED PLAN—TRAUMA INFORMED CARE

Ohio Family & Children First requires each local FCF Council to develop a Shared Plan. Below is the 2020-2022 Family & Children First Council Shared Plan developed during the 2019 FCF Council Retreat:

Shared Priority: Trauma Informed Care

Shared Outcomes: Increase and enhance the current knowledge and implementation of Trauma Informed Care (TIC) principles and practices among community members and professionals working with children and youth

Shared Measurements:
- # of Preschool/Day Care/Home Provider staff trained in TIC
- # of Mentors trained in TIC
- # of Foster Parents trained in TIC
- # of school districts implementing Handle With Care Program
- # of school staff participating in year 2 of Trauma Informed Schools
- # of agency-led TIC staff trainings/events
- 50 people attend community TIC training

Mutually Reinforcing Activities:
- Continuation of PAX Good Behavior Games trainings and implementation in all school districts
- PAX Tools training /implementation for schools and community members
- Trauma Informed Schools Training
- Handle With Care trainings

76 people trained in Trauma Informed Care

586 people trained in Trauma Informed Schools / Resetting for Resilience

160 people trained in Handle With Care

STRENGTHENING FAMILIES 10-14 PROGRAM

SFP 10-14 is the #1 evidence-based parenting program that reduces substance abuse in youth. Trained Facilitators present the 7-week program and one booster session to parents and their youth between ages 10 - 14 with family strengthening activities. Funded through the Washington County Behavioral Health Board.

10 parents and youth participated in SFP 10-14

INcredible YEARS PreSchool BaSiC PROGRaM

Facilitators presented the 14-week IYP program to parents with children ages 3-6. IYP strengthens parent-child interactions and attachment; reduces harsh discipline; and fosters parents’ ability to promote children’s social, emotional and language development. Funded through the Washington County Behavioral Health Board.

11 parents participated in the IYP Preschool Basic Program

PaREnting WiSELY

Parenting Wisely (PW) is an evidence-based interactive CD Rom program that is accessed individually at a computer and completed in a 2-3 hour session. PW provides skills that help in communicating and lowering children’s risks for problems. Both PW American Teens and PW Young Children are available on an ongoing basis to allow immediate access to parenting skills training. FREE to the public at FCF office on a weekday basis.

WHAT WE DO...

SERVICE COORDINATION and WRAPAROUND

Service Coordination is a resource to help with the toughest cases—those children or youth who are involved in multiple public systems, whose families have tried many options and are still struggling. This family-driven process offers families of children with multiple needs the opportunity to bring providers and informal supports together at the same table in a coordinated manner to support and wrap services around the family, enabling youth to thrive in their home and school environment. The Wraparound model/process is implemented for those toughest cases where all options have been exhausted.

43 youth served in Service Coordination/Wraparound

OUT-OF-HOME PLACEMENTS

Family & Children First coordinates services and funding for families whose child has been identified to need temporary out-of-home placement in a residential treatment facility. While our goal is to prevent removal of children from their home, the larger goal is for parents not to have to relinquish custody in order to receive services. Placements are made by families and funding provided by local partners.

(*A continued drop in out-of-home parental placements for families seeking assistance, is a celebration of the collaborative county efforts to reduce out-of-home placements through Service Coordination and Wraparound Services)

1 youth supported in Out-of-Home Placement

CHILD PASSENGER SAFETY FITTING STATION

In 2019, Family & Children First filled a void by becoming a Car Seat Fitting Station. Parents and other caregivers can receive education and training from certified Child Passenger Safety Technicians on how to properly install and use their child safety seat. Anyone can contact the FCF office during business hours to have a car seat checked. FCF staffs 2 trained technicians who also provide Car Seat Classes and Events in collaboration with the Marietta/Belpre City Health Department.

13 Caregivers accessed services since April 2019

WHAT WE DO...

Help Me Grow is the umbrella for two programs: Home Visiting through the Ohio Department of Health (ODH), and Early Intervention through the Ohio Department of Developmental Disabilities (DODD). Washington County FCF receives the Early Intervention Grant from DODD and is the Provider for the ODH Home Visiting Program.

Home Visiting— Home Visiting is a voluntary, confidential program offered to prenatal and new moms. FCF is affiliated with the national Parents As Teachers Home Visiting model. Credentialed Home Visitors provide the Parents As Teachers (PAT) curriculum; referrals and resources; developmental screenings; parenting tools assessments; and a Family Plan. The 4 goals of the program are:

- To increase healthy pregnancies
- Improve parenting confidence and competence
- Improve child health, development and readiness
- Increase family connectedness to community and social support

FCF serves as the Home Visiting Provider in both Washington and Morgan Counties.

97 children served in HMG Home Visiting

Early Intervention— Ohio’s Early Intervention System serves children from birth to age 3 who have a developmental delay or a diagnosed medical condition likely to cause a delay. Service Coordinators provide screenings, Individualized Family Service Plan development, transition services, referrals/resources, linkage to specialized services, and coordination of evaluations, assessment, and funding. The goals of the program are:

- To enhance the development of infants and toddlers with disabilities;
- To reduce educational costs by minimizing the need for special education through early intervention;
- To minimize the likelihood of institutionalization and maximize independent living;
- To enhance the capacity of families to meet their child’s needs

140 children served in HMG Early Intervention

Central Coordination (CC)— Bright Beginnings of Cuyahoga County serves as the contractor for HMG Central Coordination through 7 regional sites. This is the statewide system for referring to the Help Me Grow Home Visiting and Early Intervention programs. All referrals must go through the central statewide system.
